COLUMBIA PUBLIC SCHOOL DISTRICT

BID NO: RFP C-24005
SUBJECT: Work Order Management System
DATE: 2/27/2023
SCHOOL/DEPT: Facilities & Construction Services/Athletics
AWARDED TO: BRIGHTLY SOFTWARE, INC., Cary, NC

The District requested proposals for a work order management system to assist Columbia Public Schools in accomplishing their facility repair, maintenance, asset management, and facility rental related objectives. The desired system would track and manage assets, service requests, work orders, inspection reports, preventative maintenance, and facility rental through a centralized database of information that is accessible from both desktop and mobile devices.

Eight responses were received. A committee made up of technology services, the athletic department, and facilities and construction services reviewed the responses and then requested presentations from the top two companies. Evaluations were based on several factors including cost, ease of use, ability to help streamline operations, better coordinate work, improve asset knowledge and manage the use of District buildings. The District is recommending Brightly's Asset Essentials and Event Manager to replace the District's current software previously known as School Dude (now Brightly) that was initially started in 2008 and out dated.

Year 1 Total Annual Software Licenses & Professional Services	Year 2 Licenses	Year 3 Licenses	Year 4 Licenses	Year 5 Licenses
$76,059.27*	$55,586.50	$57,254.10	$58,971.70	$60,740.84
