RFP NO. 15/06
JUNIPER NETWORK INFRASTRUCTURE PROJECT
April 28, 2014
Award To: JMA INFORMATION TECHNOLOGY, Overland Park, KS
Cost: $702,228.47

The equipment and services being purchased for the Juniper Network Infrastructure Project will be needed to supply power and data connectivity to the Shoretel VOIP phones. This equipment includes Juniper switches, installation services, and all necessary equipment to connect them into our existing building networks. These switches will be installed in our buildings data closets, by the selected vendor, in all buildings across the District, with the exception of Battle High School, Rockbridge High School, Hickman High School and Columbia Area Career Center, those four buildings are receiving new switches as part of the Network Infrastructure awarded at the April 14, 2014 Board meeting.
